Section 1  
LEGAL INFORMATION

DIVISION OF  
OIL, GAS & MINING

<u>1.0 INTRODUCTION</u> .....	1	1-1
<u>1.1 CORPORATE INFORMATION</u> .....	1	1-4
1.1.1 BUSINESS ENTITY		
1.1.2 APPLICANT		
1.1.3 DIRECTORS, OFFICERS, SHAREHOLDER		
1.1.4 OTHER OPERATING NAMES		
1.1.5 PERMITS FOR SURFACE MINING AND RECLAMATION OPERATIONS		
1.1.6 LICENSES AND PERMITS FOR THE ALTON COAL PROJECT		
<u>1.2 OWNERSHIP AND RIGHT-OF-ENTRY</u> .....	1	1-23
1.2.1 OWNERSHIP - COAL, SURFACE, OIL & GAS, OTHER MINERALS		
1.2.2 HOLDERS OF LEASEHOLD INTERESTS		
1.2.3 PURCHASERS OF RECORD		
1.2.4 UII INTERESTS IN LANDS CONTIGUOUS TO THE PERMIT AREA		
1.2.5 RIGHT-OF-ENTRY INFORMATION		
1.2.6 SEVERED PRIVATE SURFACE AND MINERAL ESTATE		
1.2.7 STATUS OF UNSUITABILITY CLAIMS		
1.2.8 RELOCATION AND CLOSURE OF COUNTY ROADS		
1.2.9 PROXIMITY TO DWELLINGS		
1.2.10 LOCATION OF OIL & GAS WELLS		
1.2.11 PRIVATE FAMILY BURIAL GROUNDS		
1.2.12 OTHER MANMADE FEATURES		
1.2.13 SURFACE OWNER COMMENTS		
<u>1.3 LEGAL INFORMATION</u> .....	1	1-132
1.3.1 COMPLIANCE INFORMATION		
1.3.2 PERMIT AREA		
1.3.3 LIABILITY INSURANCE		
1.3.4 FILING AND PUBLIC NOTICE		
1.3.5 RECLAMATION FEES FROM PREVIOUS AND EXISTING OPERATIONS		
1.3.6 VERIFICATION OF APPLICATION		
1.3.7 FILING FEE		

**Section 2  
OPERATION PLAN**

	<u>Volume</u>	<u>Page</u>
<b><u>2.0 MINE PLAN SUMMARY</u></b> .....	2	2-1
2.0.1 MINE SEQUENCE		
<b><u>2.1 PRE-MINE DEVELOPMENT</u></b> .....	2	2-5
2.1.1 CONSTRUCTION PLAN		
2.1.1.1 <u>Industrial Area Construction</u>		
2.1.1.2 <u>Roadway &amp; Utility Corridors Construction</u>		
2.1.1.3 <u>Surface Water Control Structures Construction</u>		
2.1.2 TEMPORARY CONSTRUCTION FACILITIES		
2.1.2.1 <u>Construction Buildings, Work Areas &amp; Laydown</u>		
2.1.2.2 <u>Construction Utilities</u>		
2.1.2.3 <u>Construction Ancillaries</u>		
<b><u>2.2 EXISTING STRUCTURES</u></b> .....	2	2-10
2.2.1 EXISTING STRUCTURES		
2.2.2 EXISTING WATER WELLS		
2.2.3 EXISTING UTILITIES		
<b><u>2.3 WATER CONTROL PLANS</u></b> .....	2	2-11
2.3.1 SURFACE WATER CONTROL PLAN FOR THE PERMIT TERM		
2.3.1.1 <u>Permit Term Surface Water Control Design Methods</u>		
2.3.1.2 <u>Design, Construction and Operation of Sediment Control Structures</u>		
2.3.1.3 <u>Comparison of Flows and Sedimentology</u>		
2.3.1.4 <u>Design of Drainage Ditches, Diversions and Haul Road Culverts</u>		
2.3.1.5 <u>Sediment Control on Reclaimed Areas</u>		
2.3.2 SURFACE WATER CONTROLS FOR SUBSEQUENT PERMIT TERMS		
2.3.2.1 <u>Intermittent and Perennial Streams</u>		
2.3.2.2 <u>Diversions of Overflow and Ephemeral Streams</u>		
2.3.2.3 <u>Up Gradient Impoundments</u>		
2.3.2.4 <u>Containment of Runoff From Active Mine Areas</u>		
2.3.2.5 <u>Sediment Control From Active Mine Areas and Reclaimed Areas</u>		
2.3.2.6 <u>Sediment Control From Reclaimed Areas</u>		

	<u>Volume</u>	<u>Page</u>
<u>2.4 SOIL HANDLING PLAN</u> .....	2	2-63
2.4.1 SOIL SALVAGE		
2.4.2 SOIL STOCKPILING		
2.4.3 STOCKPILE STABILIZATION		
2.4.4 SOIL REPLACEMENT		
<u>2.5 DRILLING AND BLASTING</u> .....	2	2-72
<u>2.6 OVERBURDEN HANDLING</u> .....	2	2-89
2.6.1 DRAGLINE STRIPPING		
2.6.2 SHOVEL STRIPPING		
2.6.2.1 <u>Mountaintop Removal</u>		
2.6.2.2 <u>Steep Slope Mining</u>		
<u>2.7 COAL REMOVAL AND TRANSPORTATION</u> .....	2	2-101
2.7.1 COAL RECOVERY		
<u>2.8 RESOURCE CONSERVATION</u> .....	2	2-107
<u>2.9 SLOPE DETERMINATION</u> .....	2	2-108
2.9.1 MEASUREMENT FROM MAPS		
2.9.2 CROSS SECTIONS		
2.9.3 DIGITAL CALCULATION		
2.9.4 RESULTS		
<u>2.10 REGRADING OVERBURDEN</u> .....	2	2-113
2.10.1 SPOIL REGRADING EQUIPMENT AND METHODOLOGY		
2.10.1.1 <u>Permit Term Spoil Regrading</u>		
2.10.1.2 <u>Permit Area Spoil Regrading</u>		
2.10.2 POSTMINING TOPOGRAPHY		
2.10.2.1 <u>Permit Term Topography Development</u>		
2.10.2.2 <u>Permit Term Topography Testing</u>		
2.10.2.3 <u>Permit Area Topography Development</u>		
2.11.3 REFERENCES		
<u>2.11 COAL MINE WASTE AND EXCESS SPOIL DISPOSAL</u> .....	2	2-135

	<u>Volume</u>	<u>Page</u>
<b><u>2.12 CONTEMPORANEOUS RECLAMATION VARIANCE APPLICATION.....</u></b>	<b>2</b>	<b>2-135</b>
2.12.1 ACTIVE RAMPS		
2.12.2 STRIPPING AREA MATCHUP		
2.12.3 PIT DEVELOPMENT NEAR THE CROPLINE		
2.12.4 BALANCING OF STRIP RATIOS		
2.12.5 COMBINATION STRIPPING		
<b><u>2.13 SIGNS AND MARKERS.....</u></b>	<b>2</b>	<b>2-141</b>
<b><u>2.14 SITE ACCESS.....</u></b>	<b>2</b>	<b>2-142</b>
2.14.1 PROPOSED RELOCATED COUNTY ROAD		
2.14.2 SITE ACCESS CONTROL		
<b><u>2.15 REPORTING AND EMERGENCY PROCEDURES.....</u></b>	<b>2</b>	<b>2-146</b>
<b><u>2.16 MINESITE SUPPORT FACILITIES.....</u></b>	<b>2</b>	<b>2-147</b>
2.16.1 MINE PRODUCTION SUPPORT FACILITIES		
2.16.1.1 <u>Administration Office Building</u>		
2.16.1.2 <u>Shop/Warehouse/Changehouse</u>		
2.16.1.3 <u>Shop Yard</u>		
2.16.1.4 <u>Field Maintenance Shop</u>		
2.16.1.5 <u>Field Warehouse &amp; Storage Yard</u>		
2.16.1.6 <u>Weld Shop</u>		
2.16.1.7 <u>Truck Wash Facility</u>		
2.16.1.8 <u>Fuel Storage &amp; Dispensing Facilities</u>		
2.16.1.9 <u>Explosive Storage</u>		
2.16.2 ANCILLARY SITE FACILITIES		
2.16.2.1 <u>Employee &amp; Visitor Parking</u>		
2.16.2.2 <u>Fire Protection Systems</u>		
2.16.2.3 <u>Communications</u>		
2.16.3 ELECTRICAL POWER SUPPLY		
2.16.3.1 <u>Main Electrical Power Lines</u>		
2.16.3.2 <u>Industrial Area Power Distribution</u>		
2.16.3.3 <u>Mine Power Distribution System</u>		
2.16.4 MINE FACILITY ROADS		
2.16.4.1 <u>Industrial Area Roads (Primary Road)</u>		
2.16.4.2 <u>Temporary &amp; Service Roads (Ancillary Roads)</u>		
2.16.4.3 <u>Mine Haul Roads (Primary Roads)</u>

- 2.23.1 GENERAL
- 2.23.2 BONDING SCENARIO RECLAMATION PLAN
  - 2.23.2.1 Bond Increments
  - 2.23.2.2 Bonding Scenario Topography
  - 2.23.2.3 Bonding Scenario Topography Testing
  - 2.23.2.4 Excess Spoil Pile Design for Overburden Stockpile
- 2.23.3 BOND ESTIMATES METHODOLOGY
- 2.23.4 BOND ESTIMATES SUMMARIES
  - 2.23.4.1 Bond Increment I Estimate
  - 2.23.4.2 Bond Increment II Estimate
- 2.23.5 UNIT COSTS AND UNIT APPLICATION RATES
  - 2.23.5.1 Demolition Costs
  - 2.23.5.2 Labor Costs
  - 2.23.5.3 Equipment Unit Costs
  - 2.23.5.4 Material Unit Costs
  - 2.23.5.5 Unit Application Rates
- 2.23.6 BOND RECLAMATION PRODUCTIVITY EFFICIENCY ESTIMATES
  - 2.23.6.1 Demolition Productivities
  - 2.23.6.2 Grading Productivities
  - 2.23.6.3 Soil Replacement Productivity Efficiencies
  - 2.23.6.4 Revegetation Production Efficiencies
- 2.23.7 UNIT RECLAMATION ACTIVITY COST ESTIMATES FOR BONDING
  - 2.23.7.1 Demolition Unit Costs
  - 2.23.7.2 Grading Activities Unit Costs
  - 2.23.7.3 Soil Replacement Operations Unit Costs
  - 2.23.7.4 Revegetation Subtask Costs Per Acre
- 2.23.8 BONDING SCENARIO RECLAMATION QUANTITIES ESTIMATE
- 2.23.9 OTHER UNIT COSTS AND ESTIMATES
  - 2.23.9.1 Mobilization and Demobilization Estimates
  - 2.23.9.2 Contingency Estimates
  - 2.23.9.3 Engineering Cost Estimates
  - 2.23.9.4 Reclamation Management and Administration Estimates
  - 2.23.9.5 Contractor's Profit and Overhead Estimates
  - 2.23.9.6 Escalation Estimates

### Section 3 RECLAMATION PLAN

	<u>Volume</u>	<u>Page</u>
<b><u>3.0 INTRODUCTION</u></b> .....	6	3-1
<b><u>3.1 RECLAMATION OBJECTIVES</u></b> .....	6	3-3
3.1.1 ENVIRONMENTAL OBJECTIVES		
3.1.2 LAND USE OBJECTIVES		
3.1.3 POST-MINING LAND USE AND REVEGETATION TYPES		
3.1.3.1 <u>Irrigated Alfalfa/Grass Cropland</u>		
3.1.3.2 <u>Dryland Alfalfa/Grass Cropland</u>		
3.1.3.3 <u>Improved Grass Pasture</u>		
3.1.3.4 <u>Grassland</u>		
3.1.3.5 <u>Mixed Grass/Shrubland</u>		
3.1.3.6 <u>Meadow</u>		
<b><u>3.2 RECLAMATION METHODS</u></b> .....	6	3-10
3.2.1 TREE AND SHRUB REMOVAL		
3.2.2 SOIL AND SALVAGE		
3.2.2.1 <u>Soil Suitability</u>		
3.2.2.2 <u>Soil Salvage</u>		
3.2.3 REGRADING		
3.2.4 SPOIL SAMPLING		
3.2.4.1 <u>Sampling Design</u>		
3.2.4.2 <u>Sample Analysis</u>		
3.2.5 SPOIL MITIGATION		
3.2.6 SPOIL COMPACTION MITIGATION		
3.2.7 SOIL REPLACEMENT AND SAMPLING		
3.2.7.1 <u>Soil Replacement</u>		
3.2.7.2 <u>Soil Sampling</u>		
3.2.8 SEEDBED PREPARATION FERTILIZATION AND MULCHING		
3.2.8.1 <u>Seedbed Preparation</u>		
3.2.8.2 <u>Fertilization</u>		
3.2.8.3 <u>Mulching</u>		
3.2.9 SEEDING AND PLANTING		
3.2.9.1 <u>Seed Mix A - Irrigated Alfalfa/Grass Cropland</u>		
3.2.9.2 <u>Seed Mix B - Dryland Alfalfa/Grass Cropland</u>		
3.2.9.3 <u>Seed Mix C - Improved Grass Pasture</u>		
3.2.9.4 <u>Seed Mix D - Grassland</u>		
3.2.9.5 <u>Seed Mix E - Mixed Grass/Shrubland</u>		
3.2.9.6 <u>Seed Mix F - Meadow</u>		
3.2.9.7 <u>Seed Mix G - Soil Stockpiles</u>		
3.2.9.8 <u>Seed Mix H - Temporary Facilities</u>		
3.2.9.9 <u>Seeding and Planting</u>		
3.2.10 RECLAMATION TIMETABLE		

	<u>Volume</u>	<u>Page</u>
<b><u>3.3 SPECIAL RECLAMATION</u></b> .....	6	3-46
3.3.1 TEMPORARY RECLAMATION		
3.3.2 CASING AND SEALING OF BOREHOLES		
<b><u>3.4 RECLAMATION AND LAND USE MANAGEMENT</u></b> .....	6	3-49
3.4.1 MANAGEMENT DECISION MAKING		
3.4.2 MANAGEMENT UNITS		
3.4.2.1 <u>Land Management Units</u>		
3.4.2.2 <u>Livestock Management Units</u>		
3.4.3 MONITORING		
3.4.4 LIVESTOCK GRAZING		
3.4.4.1 <u>Objectives of Livestock Grazing</u>		
3.4.4.2 <u>Grazing Criteria</u>		
3.4.5 LAND DEVELOPMENT		
3.4.5.1 <u>Fencing</u>		
3.4.5.2 <u>Water for Livestock and Wildlife</u>		
3.4.5.3 <u>Irrigation</u>		
3.4.5.4 <u>Salt Distribution</u>		
3.4.6 LAND MAINTENANCE		
3.4.6.1 <u>Fertilization</u>		
3.4.6.2 <u>Weed Control</u>		
3.4.6.3 <u>Pest and Disease Control</u>		
3.4.6.4 <u>Rills and Gullies</u>		
3.4.7 WILDLIFE USE		
3.4.8 SPECIAL PROTECTION AREAS		
<b><u>3.5 WILDLIFE PROTECTION PLAN</u></b> .....	6	3-58
3.5.1 HABITAT LOSS IMPACTS		
3.5.1.1 <u>General</u>		
3.5.1.2 <u>Species-Specific Concerns</u>		
3.5.2 MITIGATION FOR HABITAT LOSS		
3.5.2.1 <u>Establishment of Wildlife Shelter</u>		
3.5.2.2 <u>Establishment of Vegetation</u>		
<b><u>3.6 STANDARDS FOR REVEGETATION SUCCESS</u></b> .....	6	3-65
3.6.1 REVEGETATION SUCCESS STANDARDS AND LAND USE		
3.6.2 ALTERNATIVE APPROACHES FOR DETERMINING REVEGETATION SUCCESS		
3.6.3 INFORMATION SOURCES FOR TECHNICAL STANDARDS		
3.6.4 RATIONALE AND DESCRIPTIONS OF TECHNICAL STANDARDS		
3.6.4.1 <u>Irrigated Alfalfa/Grass Cropland</u>		
3.6.4.2 <u>Dryland Alfalfa/Grass Cropland</u>		
3.6.4.3 <u>Improved Grass Pasture</u>		
3.6.4.4 <u>Grassland</u>		
3.6.4.5 <u>Mixed Grass/Shrubland</u>		
3.6.4.6 <u>Meadow</u>		
3.6.5 VEGETATION MONITORING AND SAMPLING		
3.6.5.1 <u>Extended Responsibility Period</u>		
3.6.5.2 <u>Revegetation Success Determination</u>		

Section 4  
GEOLOGY AND HYDROLOGY

4.1-6A	Johnson Creek Near Cottonwood Canyon, 1937
4.1-6B	Johnson Creek Near Cottonwood Canyon, 1987
4.1-7A	Johnson Canyon Near Skutumpah Creek, 1937
4.1-7B	Johnson Canyon with Skutumpah Creek, 1987
4.1-8	Primary Drainage Network Basin DB1
4.1-9	Primary Drainage Network for Basin DB2

4.1-10	Primary Drainage Network for Basin DB3
4.1-11	Primary Drainage Network for Basin DB4
4.1-12	Basin Characteristics in Permit Term Area
4.1-13	Drainage Density vs. Relief Ratio
4.1-14	Streams Order and Bifurcation Ratios Field
4.1-15	Bifurcation Ratio and Basin Hydrology
4.1-16	Secondary Drainage Density Plots SP1
4.1-17	Secondary Drainage Density Plot SP3
4.1-18	Secondary Drainage Density Plot SP2
4.1-19	Secondary Drainage Density Plot SP4
4.1-20	Estimated Secondary Drainage Densities
4.1-21	Secondary Tributary Junctions
4.1-22	Plan View of Bald Knoll Hollow Survey Data
4.1-23	Projected Profiles of Bald Knoll Hollow
4.1-24	Sink Valley Wash Top Bank and Channel Profiles
4.1-25	Longitudinal Profile Basin DB1
4.1-26	Longitudinal Profile Basin DB2
4.1-27	Longitudinal Profile Basin DB3
4.1-28	Longitudinal Profile Basin DB4
4.1-29	Sediment Survey Ponds and Basins
4.1-30	Mean Annual Sediment Yields
4.1-31	Grain size Distribution Curves for Site SS1
4.1-32	Grain-size Distribution Curve, Site SS2
4.1-33	Grain-size Distribution Curve, Site SS3
4.1-34	Grain-size Distribution Curve, Site SS4
4.1-35	Grain-size Distribution Curve, Site SS5
4.2-1	Regional Map of Inventoried Surface and Ground Water Sites
4.2-2	General Location Map
4.2-3	Precipitation and Temperature Normals at Alton and Kanab, Utah
4.2-4	Accumulated Snow Water Equivalent for Three Stations in South-Central Utah
4.2-5	1979-1985 Annual Precipitation and Temperature Departure from Normal
4.2-6	1986 Precipitation and Temperature Departure from Normal
4.2-7	Streamflow Summary for Kanab Creek Near Kanab, Utah (USGS Station 09403600) 1980-1985
4.2-8	Streamflow Summary for East Fork of the Virgin River (USGS Station 09404450) 1967-1985
4.2-9	Summary of Annual Discharges for Gaged Streams in the Physiographic Region
4.2-10	Suspended Sediment: North Fork of Virgin River Below Bullock Canyon or Above Zion Narrows (1975-1984)
4.2-11	Surface Water Monitoring Stations
4.2-12	Watershed Characteristics of East and West Panel Drainages - Alton Coal Project
4.2-13	Watershed Characteristics of Selected Reaches Within the Coal Lease Area - Alton Coal Project

- 4.2-14 Watershed Characteristics for Upper Kanab Creek
- 4.2-15 Watershed Characteristics for Lower Kanab Creek and Adams Wash
- 4.2-16 Watershed Characteristics for Lower Robinson Creek
- 4.2-17 Watershed Characteristics for Sink Valley Wash
- 4.2-18 Watershed Characteristics for Thompson Creek in Fisher Canyon
- 4.2-19 Watershed Characteristics for Tater Canyon and Skutumpah Canyon
- 4.2-20 Watershed Characteristics for Skutumpah Creek
- 4.2-21 Watershed Characteristics for Mineral, Mill, and Tenny Creeks
- 4.2-22 Previous Surface Water Sampling Within Permit Area
- 4.2-23 Mean Daily Flow Statistics for USGS 09403650 Thompson Creek (Upper Station) Near Glendale (CFS)
- 4.2-24 Mean Daily Flow Statistics for USGS 09403660 Thompson Creek (Lower Station) Near Glendale (CFS)
- 4.2-25 Mean Daily Flow Statistics for USGS Gage 09403620 Mill Creek Near Glendale (CFS)
- 4.2-26 Mean Daily Flow Statistics for USGS Gage 09403630 Skutumpah Creek Near Glendale (CFS)
- 4.2-27 Thompson Creek Above Study Area T-1 Previous Water Quality Data Within Permit Area (1976-1977)
- 4.2-28 Thompson Creek Below Study Area T-3 Previous Water Quality Data Within Permit Area (1975-1977)
- 4.2-29 Thompson Creek Below Study Area T-4 Previous Water Quality Data Within Permit Area (1974)
- 4.2-30 Mill Creek Above Mine Site M-2 Previous Water Quality Data Within Permit Area (1974-1977)
- 4.2-31 Skutumpah Creek Below Study Area S-1 Previous Water Quality Data Within Area (1974-1977)
- 4.2-32 Kanab Creek East of Alton at Station K-1 Previous Water Quality Data Within Permit Area (1975-1976)
- 4.2-33 Location of Surface Water Monitoring Stations
- 4.2-34 Surface Water Level Continuous Recording Station Conceptual Drawing
- 4.2-35 Baseline Water Quality Parameter List
- 4.2-36 Summary of Laboratory Analytical Methods for Surface Water
- 4.2-37 Summary of Monthly Instantaneous Discharge Values (in CFS) for Surface Water Stations, Alton Coal Project - 1986 and 1987
- 4.2-38 Comparison of Discharges at Thompson Creek Monitoring Station SW-14
- 4.2-39 Comparison of Discharges at Skutumpah Creek Monitoring Station SW-11
- 4.2-40 Comparison of Discharges at Mill Creek Monitoring Station SW-16
- 4.2-41 Quarterly Pond Level Measurements

4.2-42	Number of Ponds Per Drainage
4.2-43	Continuous Monitor Locations
4.2-44	Kanab Creek Instantaneous Hydrograph
4.2-45	Kanab Creek Daily Hydrography
4.2-46	Average Daily Streamflow - Kanab Creek Monitoring Station SW-2
4.2-47	Sink Valley Wash Instantaneous Hydrograph
4.2-48	Sink Valley Wash Daily Average Hydrograph
4.2-49	Average Daily Streamflow - Sink Valley Wash Continuous Monitor SW-9
4.2-50	Skutumpah Creek Instantaneous Hydrograph
4.2-51	Skutumpah Creek Daily Average Hydrograph
4.2-52	Average Daily Streamflow - Skutumpah Creek Continuous Monitor SW-11
4.2-53	Thompson Creek Instantaneous Hydrograph
4.2-54	Thompson Creek Daily Average Hydrograph
4.2-55	Average Daily Streamflow - Thompson Creek Continuous Monitor SW-12
4.2-56	Typical Summer Convective Storm Hydrography
4.2-57	Continuous Monitor Flow-Area Ratios
4.2-58	Estimated Monthly Discharges
4.2-59	SCS TR-20 Input Parameters
4.2-60	Velocities for Upland Method of Estimating Tc
4.2-61	Rainfall Depths for 6- and 24-Hour Storms
4.2-62	Kanab Creek Drainage System Theoretical Peak Flows
4.2-63	Sink Valley Wash Drainage System Theoretical Peak Flows
4.2-64	Thompson Creek Drainage System Theoretical Peak Flows
4.2-65	Skutumpah Creek Drainage System Theoretical Peak Flows
4.2-66	Theoretical Peak Flow to Area Ratios
4.2-67	Mean Percent Distribution and Total Dissolved Solids Concentrations of Major Cations and Anions for Quality Data
4.2-68	Water Quality for Station SW-1
4.2-69	Water Quality for Station SW-2
4.2-70	Water Quality for Station SW-3
4.2-71	Water Quality for Station SW-4
4.2-72	Water Quality for Station SW-5
4.2-73	Water Quality for Station SW-6
4.2-74	Water Quality for Station SW-7
4.2-75	Water Quality for Station SW-8
4.2-76	Water Quality for Station SW-9
4.2-77	Water Quality for Station SW-10
4.2-78	Water Quality for Station SW-11
4.2-79	Water Quality for Station SW-12
4.2-80	Water Quality for Station SW-13
4.2-81	Water Quality for Station SW-14
4.2-82	Water Quality for Station SW-15
4.2-83	Summary of Water and Sediment Discharges for Station T-1, Thompson Creek, October 1975 to September 1977

- 4.2-84 Summary of Water and Sediment Discharges for Station T-3, Thompson Creek, October 1975 to September 1977
- 4.2-85 Summary of Water and Sediment Discharges for Station M-2, Mill Creek, October 1975 to September 1977
- 4.2-86 Summary of Water and Sediment Discharges for Station S-1, Skutumpah Creek, October 1975 to September 1977
- 4.2-87 Instantaneous Sediment-Discharge Measurements Made by BLM in 1974 - East Panel
- 4.2-88 Locations of Points on Channels to Which Basin Sediment Yields Apply - Thompson and Skutumpah Creek Drainages
- 4.2-89 Sediment Yields and Channel Characteristics at Selected Sites - Thompson Creek and Skutumpah Creek Drainages
- 4.2-90 Universal Soil Loss Equation Baseline Conditions
- 4.2-91 Pacific Southwest Interagency Procedure Sediment Yield Data Baseline Premining Conditions
- 4.2-92 EMRIA and PSIAC Sediment Yield Comparisons
- 4.2-93 Headcut Data - THC-A - Thompson Creek Drainage
- 4.2-94 Sheet Erosion at AWSW1 - Adams Wash Drainage
- 4.2-95 State of Utah and Federal Water Quality Standards
- 4.2-96 Surface Water Quality Parameters Exceeding Established Standards
- 4.2-97 Surface Water Rights
- 4.3-1 Regional Geologic Map of the Alton Coal Field
- 4.3-2 Generalized Section of Rock Formations in the Alton Coal Field
- 4.3-3 Generalized Stratigraphic Relationships in the Alton Coal Field
- 4.3-4 Generalized Structure Map of the Alton Coal Field
- 4.3-5 Wells and Springs Inventoried During Previous (Pre-1986) Hydrogeologic Investigations Within and Adjacent to the Alton Coal Project Permit Area, Western Kane County, Utah
- \* 4.3-6 Baseline Ground Water Monitoring Wells and Springs for the Alton Coal Project 1" = 2000'
- 4.3-7 Summary of Completion Details of Coal and Alluvial Monitoring Wells
- 4.3-8 Typical Completion Diagram for Coal Wells Installed in 1979 and 1980
- 4.3-9 Typical Completion Diagram for Alluvial Wells Installed in 1979 and 1980
- 4.3-10 Completion Diagram for Alluvial Pump Test Well Y61
- 4.3-11 Ground Water Monitoring Stations
- 4.3-12 Typical Completion Diagram for Coal and Alluvial Wells Installed in 1986
- 4.3-13 Baseline Ground Water Quality Parameter List
- 4.3-14 Summary of Laboratory Analytical Methods for Ground Water
- 4.3-15 East Block Hydrogeologic Cross-Section A-A'
- 4.3-16 Sink Valley - West Panel Hydrogeologic Cross-Section B-B'
- 4.3-17 Sink Valley - West Panel Hydrogeologic Cross-Section C-C'
- 4.3-18 Potentiometric/Water Table Surface Map of the Smirl Coal

- 4.3-19 Potentiometric/Water Table Surface Map of the Sink Valley Alluvium
- 4.3-20 Hydraulic Conductivities and Transmissivities of the Coal and Alluvial Aquifers
- 4.3-21 Mean Percent Distribution of Major Cations and Anions for Coal Water Quality Data
- 4.3-22 Mean Percent Distribution of Major Cations and Anions for Alluvial Water Quality Data
- 4.3-23 Mean Percent Distribution of Major Cations and Anions for Spring Water Quality Data
- 4.3-24 Relationship of Mean Total Dissolved Solids to Mean Specific Conductivity for Coal and Alluvial Wells
- 4.3-25 State of Utah and Federal Water Quality Standards
- 4.3-26 Ground Water Quality Parameters Exceeding Established Standards
- 4.3-27 Ground Water Rights
- 4.3-28 Summary of the Water Righted Uses for Springs and Wells

**Sections 6.1-6.4**  
**Exhibits**

- 6.1-1 Typical Sampling at a Random Sample Site Location
- 6.2-1 1986 Vegetation Sampling Results for the Pinyon-Juniper  
Woodland Community on the Permit Area
- 6.2-2 1986 Vegetation Sampling Results for the Pinyon-Juniper/  
Mountain Brush Community on the Permit Area
- 6.2-3 1986 Vegetation Sampling Results for the Pinyon-Juniper/  
Sagebrush Community on the Permit area
- 6.2-4 1986 Vegetation Sampling Results for the Mountain Brush  
Community on the Permit Area
- 6.2-5 1986 Vegetation Sampling Results for the Sagebrush Community  
on the Permit Area
- 6.2-6 1986 Vegetation Sampling Results for the Meadow Community on  
the Permit Area
- 6.3-1 1980 Ground Cover Data for the Six Native Vegetation  
Communities of the Permit Area
- 6.3-2 1980 Production Data for the Six Native Vegetation  
Communities of the Permit Area
- 6.3-3 1980 Woody Plant Density Data for the Six Native Vegetation  
Communities of the Permit Area
- 6.4-1 Vegetation Map
- 6.4-2 Frequency of Precipitation at Alton, Utah From 1916 to 1986
- 6.4-3 Comparison of 1980 and 1986 Cover and Production Data For  
the Six Native Vegetation Communities of the Permit Area

Sections 7.1-7.2  
Exhibits

- 7.1-1 Locations of Wildlife Transects and Survey Areas
- 7.2-1 Results of Mule Deer Track Surveys and Locations of  
Important Wildlife Features
- 7.2-2 Raptor Nests on or Near the ACL
- 7.2-3 Summary of Sage Grouse Leks Located on or Near the Baseline  
Study Area
- 7.2-4 Results of the Sage Grouse Habitat Transects

**Section 8.0**  
**Climate**  
**Exhibits**

8.0-1	Location of Ford Pasture Meteorological Station
8.0-2	Precipitation
8.0-3	Temperature

**Sections 9.0-9.2**  
**Exhibits**

9.0-1	Project Location, Kane County, Utah
9.0-2	Surveyed Areas Near Table Mountain
9.0-3	Surveyed Areas Near Thompson Creek
9.0-4	Surveyed Areas Near Bald Knoll
9.0-5	Surveyed Areas West of Bald Knoll
9.0-6	Surveyed Areas Near Broad Hollow
9.0-7	Surveyed Areas Near Sink Valley
9.0-8	Surveyed Areas Near Alton
9.0-9	Surveyed Areas Near Coal Hollow
9.0-10	Surveyed Areas Near Black Mountain
9.0-11	Prehistoric Site Characteristics
9.0-12	Regional Cultural Sequence and Local Components, 1986 Survey
9.0-13	Hearth and Roasting Pit Feature Data, 1986 Survey
9.0-14	Ground Stone Types and Materials, 1986 Survey
9.0-15	Edible Plant Resources
9.0-16	Cockscomb Denticulate Tool, NA19,530
9.0-17	Projectile Point Type by Site, 1986 Survey
9.0-18	Isolated Projectile Point Types by Number, 1986 Survey
9.0-19	Isolated Projectile Point Types by Area, 1986 Survey
9.0-20	Archaic Projectile Points
9.0-21	Archaic and Basketmaker II Projectile Points
9.0-22	Formative and Later Projectile Points
9.0-23	Historical Site Characteristics
9.0-24	Archaeological and Historical Resources
9.2-1	Land Classification System Revisions
9.2-2	Land Use Map
9.2-3	Acreages of Lands in the Alton Coal Permit Area
9.2-4	Grazing Allotment Maps
9.2-5	BLM Grazing Allotments
→ 9.2-6	Known Previous Mining Operations
→ 9.2-7	Previous Mining Activity
9.2-8	Local Zoning
